RE: OPEN PIT MINING

Senator Roger Breske:

We would like to introduce ourselaves to you. We are, Trapp Brothers, Inc. of Woodruff, Wi. 54568. Our business is family, owned and operated since 1945, and is four generations. We are natives in the area, born and raised.

The northwoods has been our livelihood,we rely on the need for open pit mining resources to see our product. Many, may not be in favor of pits but it is necessary for all road building, home construction, and the growth of our community and all communities in our area.

Our pit at the present time borders DNR(STATE OF WI), therefore we contacted the STATE to negotiate or lease from them, because it was more advantageous to us to maintain the open pit mining where we are at, then to move to a different location that is east of us. This site is only 1/2 mile from us now, and the price of fuel now would be alot easier to maintain a price for our product.

Sincerely,

Michael Trapp
